Dear Mr. Weisberg.

Thank you very much for sending your book. I am enclosing a money order for five dollars.

I don't know whether this following information has anything to do with the Kennedy assassination. I was talking to a man and he told me that his neighbor Allan Nye, (Whiting, Indiana) back in the early 1960's was involved with the C.I.A. in a plot to kill Castro. Now if this information is true, it might not have anything to do with the Kennedy case, but it could have lead up to the things that were going to happen in 1963.

I hope this information will help you.

Thaddeus J. Gorski
